

Life is Tech ! Programming Workshop

At TICAD VII Official Side Event

We, Life is Tech Inc. aims at expanding its footprint to promote programming education for teenagers which we trust will eventually build necessary skills among them to contribute to the development and better future of the nations and as a whole in Africa.

At this camp, you can try coding to design and develop websites on MOZER, Life is Tech ! 's online ICT educational course. Also, we will introduce the case of programming education that we have been implementing so far in the Republic of Ghana. English and Japanese will be available at this event.

We are looking forward to seeing you!!
